

THE PAN-AMERICAN

Weekly Resume of Events Happening There

FLORIDA DAY PROGRAM

Florida Press Association and the Governor Present.

(Special Correspondence.)

Buffalo, Sept. 12.—This morning the Governor of Florida, accompanied by his staff and a number of visiting Floridians, entered the exposition grounds, escorted by a company of Florida troops. They halted in front of the Illinois building, which had been placed at their disposal for the day. The Illinois building has a suite of drawing rooms connected by a wide hall, which makes an admirable place for exercises of this kind. It was crowded when the Governor and his party reached the rostrum. The meeting was called to order by Colonel Thomas M. Wier, one of the Commissioners from Florida, who presided. The opening prayer was made by the Rev. J. B. Lay, of Tampa. After prayer, Mrs. F. W. Taylor sang as a solo a "Song of Thanksgiving," by Aletseth. The Director-General then delivered an address of welcome. The response was made by Governor Jennings, the orator of the day, who spoke at length on the resources of the State of which he is Chief Executive. In concluding his remarks, Gov. Jennings deprecated the attempted assassination of the President of the United States, and advocated the most stringent measures in dealing with anarchists in the future. He recommended the deportation of all such people from our shores. His remarks were loudly applauded. The Governor and his staff were then escorted to the Stadium restaurant by Messrs. Wier and Pfeiffer, the commissioners from Florida, where dinner was served. At 5 o'clock they attended a tea, given in the Woman's Building on the Pan-American grounds, at the invitation of Mrs. John Miller Horton, the chairman of the Committee on Entertainment and Ceremonies. Mrs. Horton always extends a most courteous welcome to the visiting Governors and the ladies of their families, and has been foremost in her efforts to make their stay at the Pan-American Exposition pleasant. She is the social leader of Buffalo; is immensely wealthy, but no one has worked harder for the success of the exposition or contributed more to the pleasure of the visitors than this handsome and elegant woman.

The Press Association of Florida is here in a body. A special program has been arranged for to-night in the Ohio Building. The program is as follows:

An orchestra has been engaged to intersperse the exercises with appropriate music. After music, there will be prayer by Mr. Ley, of Tampa, then E. H. Butler, of the Buffalo Evening News, will address the meeting on "Journalism, North and South." This will be followed by an address by Frank E. Harris, Esq., of Ocala. His subject is "Twentieth Century Journalism." Mr. Painter, of the Florida Agriculturist, and Mr. McCreary, of the Gainesville Sun, will also speak. Past Grand Chancellor Sumter L. Lowry, of the Southern Pythian, at Tampa, will speak on "Fraternal Publications." A paper will be read by Miss Sara L. Harris on "Women in Journalism."

The Florida people are thoroughly enjoying their visit to the exposition, and are gratified to know that although Florida Day has been changed four times, the ceremonies to-day were most successful.

As the exposition draws to a close the need of a larger building for the Louisiana and Texas rice kitchen becomes every day more apparent. It has been a conspicuous success from every standpoint. The place has been kept scrupulously clean, the fare admirably cooked, and rice has been exploited in every possible way. The first course has always been chicken gumbo filé soup, and this Creole dish has become so popular that it will probably be introduced on Northern tables in the future. Another innovation will be the use of rice flour in the place of corn starch in ice cream. The rice flour is more nourishing, and its presence cannot so readily be detected. Rice has entered into the dressing of the roast chicken served in the rice kitchen very extensively, and has become popular both as a separate dish and as an accompaniment to other viands.

Colonel Eggleston and his corps of assistants have the all in their power to make everything pleasant and agreeable for their numerous guests. Though hundreds have been turned away every day they have been treated with universal courtesy and kindness. It is very much to be regretted that more space was not given to this, the most successful experiment that has been tried on the Pan-American grounds. It goes without saying that every exposition in the future will have a rice kitchen. The sale of the cereal has increased fifty per cent. throughout this section of the country and it has been advertised through the medium of the press from San Francisco to New York.

CHARLES EDWARD LLO. D.

A Sure Thing for You.

A transaction in which you cannot lose is a sure thing. Biliousness, sick-headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascarets Candy Cathartic, the wonderful new liver stimulant and intestinal tonic are by all druggists guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box to-day; 10c., 25c., 50c. Sample and booklet free. See our big ad.

A WAKULLA WEDDING.

Married—on last Sunday morning, at 10 o'clock, at the home of the bride's parents, Mr. Ira B. Raker and Miss

Edna L. Allen were joined together in holy wedlock, Rev. T. B. Stanaland officiating. The bride is the daughter of Mr. J. M. Allen, of Medart, and the groom is the son of Mr. William Raker, who lives three miles above here. We join with their many friends in wishing them a long and happy journey through life.—Gulf Coast Breeze.

IAMONIA LOCALS.

After so long a time we come again with a contribution for your columns or—waste basket, one.

Mr. Cook, who had commenced to teach school at the W. J. Dickey school house, near Bethany Church, Thomasville, Ga., was thrown from his wheel and hurt internally about the 25th of August and has not since then been able to teach any more. He had commenced the school and had taught about three or four weeks, and was returning from Thomasville, where his mother lives, when this unfortunate event befell him. He had only gone as far as Henry Quarterman's and had to stop there and take to his bed. He became able to return home to his mother in Thomasville last week. It is not known when, if ever, he will be able to resume his school. We are very sorry for him, his mother, and the Bethpage folks, with whom he is very popular. Mr. Cook is an intelligent gentleman, and we do hope that he will be enabled by returning health to teach the Bethpage school again soon.

The patrons of the aforesaid school have just erected a new school house of plank, from 30 to 40 feet long, and of breadth in proportion. This house being in Georgia, was built by private enterprise. This is the way some of our quarrelsome patrons of Leon county ought to be made to do—but their own school houses or pay for the building of them.

There's a great deal of sickness—as bad colds and fever—scattered around. People are picking and carrying their cotton to the steam gins about through the country.

Mr. Blount Strickland, Sr., and grandson, Edgar, and Mr. Bascom Dickey went to the bay last week, and we guess are at this time "getting fat" on fish and oysters.

The public road leading from Sunny Hill to Iamonia has at last been worked, but we suspect will have to be worked again soon, if it should happen to rain excessively.

We would have sent more "Dots" but we have been sick and could not go abroad to hunt for news. Will do better next time, we hope.

Mr. H. A. Pass, Bowman, Ga., writes: "One of my children was very delicate and we despaired of raising it. For months my wife and I could hardly get a night's rest until we began the use of Pitt's Carmine. We found great relief from the first bottle. Pitt's Carmine acts promptly and cures permanently. It is pleasant to the taste, and children take it without coaxing. It is free from injurious drugs and chemicals."

DE FUNIAK SCHOLARSHIPS.

Educational Department, State of Florida, Office of W. N. Sheats, Superintendent, Tallahassee, Sept. 14.—Editor Tallahasseean: Will you kindly make the following announcement through your columns to all who may be interested:

The scholarships in the State Normal School, at DeFuniak Springs, not yet having been awarded for Monroe, Polk, Citrus and Sumter counties, therefore, in pursuance of Section 4, of Chapter 4996, Laws of Florida (1901) I will hold an examination at Tallahassee for the purpose of awarding these scholarships, and any others that may then be vacant. The examination will be open to any eligible person resident in this State, and will begin at 9 a. m., Friday, September 27th, in the Senate Chamber. Four or more scholarships worth \$100.00 each per annum will be awarded for two years.

Very respectfully,

WM. N. SHEATS,
State Supt. Pub. Inst.

MINISTERS ENDORSE IT.

Many ministers have testified to the merits of John R. Dickey's Old Reliable Eye Water. It relieves all inflammation and cures granulated lids without a particle of pain. Send for testimonials or better still get a bottle and try it. The genuine is always enclosed in a red carton. 25 cents at Wight & Bros.' drug store.

W. C. T. U. DEPARTMENT.

A few statistics will give some idea of the condition of the temperance reform in the South. In New York State there are 2,000 more saloons than in all the fifteen States of the South. In the Southern States there are 27,000,000 people, and 17,000,000 of them are living under absolute prohibition. In Georgia there is one saloon to every 1,830 people; in New York there is one saloon to every 276 people. In Mississippi there is one saloon to every 2,730 people; in New Jersey there is one saloon to every 230 people. There are 137 counties in Georgia, and 119 of them are under absolute prohibition. In Kentucky, the land of fast horses, beautiful women and old Bourbon, there are 116 counties, and 76 of them are under absolute prohibition. Two-thirds of the population of the South and four-fifths of the territory have already abolished the liquor traffic, and it looks as if the friends of temperance were determined to run it out of the whole territory.

GONE TO FORT MYERS.

The current issue of the Fort Myers Press announces the opening of the Lee County High School at that place last Friday. The school has a complement of five teachers, and Prof. A. B. Clark, of this city, is the first assistant to the principal.

Prof. Clark was among the brightest pupils at West Florida Seminary (now the Florida State College), and will no doubt sustain the reputation of his instructors at that institution in his new field. We congratulate the Lee County High School in securing his services.

Don't wait until you become chronically constipated but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe pills. All dealers.

FLORIDA DAY.

E. Warren Clark Describes the Event and the Exposition Attractions.

September 12th was "Florida Day" at the Pan-American, and was a great success. Governor Jennings and his party accompanied by the State troops from Tampa, arrived the day previous, and a goodly number of persons representing all parts of Florida assembled in the parlors of the Illinois Building at 11 o'clock on Thursday morning.

An appropriate prayer was offered by Rev. J. E. Porter, of Ocala. An address of welcome was given with much cordiality by Director-General William E. Buchanan. He welcomed the Governor of Florida with special interest, he said, as one among the first of the State executives to personally pay a visit of sympathy to the wounded President.

Governor Jennings responded in an address of much feeling, and then presented the best array of facts and agricultural statistics concerning the State of Florida to which we ever listened. It was a strong paper, and a universal desire prevailed for its publication and distribution. As the Governor stood on the little platform, under the beautiful drapery of the Illinois Building, with the members of his staff around him it presented a very graceful picture.

Seated at the end of the sofa was little Bryan Jennings, who applauded his father's closing eulogy of McKinley as heartily as any of the enthusiastic sons of Ohio and Illinois.

Governor Yates, of Illinois, gave a reception to Governor Jennings and his Florida friends just after the exercises were over. The Illinois Governor is a most affable man, and chatted with some of us on one porch in a most confidential way. We thanked him that Illinois had given us such a good Governor, and presented him our "Florida Hill Country" pamphlet, with the picture of an Illinois girl ornamenting its cover.

In response to an urgent invitation to "come to Florida," Gov. Yates said he hoped that he might be able to visit the land of flowers next winter.

Something of a sensation was created by Mr. T. M. Wier, Florida Commissioner, declaring in his closing address that if the President's assassin had attempted his deed in Florida, he would not have known the next morning of the earth "so quick" that people would not have known the next morning what he had for breakfast, what his pedigree was, or even how time to spell his name (Czolgosz).

Mr. Wier then conducted the Governor and party through some of the attractive features of the exposition, showing them the splendid live stock display of cattle and the mammoth model of Minnesota's \$3,000,000 capitol in butter.

This beautiful model is 25 feet long, 10 feet wide and 5 feet high, and is kept in shape by an elaborate clockwork apparatus. One of the big Holstein cows exhibited gives 90 pounds of milk per day.

After the Agricultural and Horticultural Halls were visited, an elaborate dinner was served to the Governor and party in the Stadium by the Florida Commissioner.

The dinner was well arranged, and greatly enjoyed by about forty guests. After this, a few friends accompanied the Governor to the famous Bostock's menagerie on the Midway. Little Bryan Jennings was greatly impressed at the wild beast show as he saw the man sitting in a den of twenty-four ferocious lions, with the huge beasts piled up like kittens about him, and a young lady fearlessly facing a dozen lionesses; while great elephants walked over the prostrate body of their keeper. "The Land of the Midnight Sun" was also visited, the scenic effects of which were the most marvelous triumphs in electrical science and illumination. After this came the great Cyclorama of Jerusalem and the Crucifixion. Here the scene is darkened the earthquake and darkness were reproduced with startling realistic effect. The courtesy of all the notable exhibits of the Midway are extended to the Governor and the Commissioner's party, including the Japanese Village, the Indian Congress, the wonderful infant incubators and the Trip to the Moon.

In the latter part of the afternoon, Governor Jennings called with his new Adjutant-General upon the President at the Milburn House.

The display of Paine's fireworks in the evening was very fine. The Governor and party viewed it from the top of the Ohio Building, where the meeting of the Florida Press Association was also held. The "bombs bursting in air" were superb in their effect, and finer than anything of the kind ever before seen in this country, or anywhere else. The electrical lighting of the exposition grounds (as the lights glowed from a faint glimmer to their full effulgence rivaling the mid-day sun in its splendor) called forth exclamations of astonishment and delight from the Florida visitors, who now beheld it for the first time. All agree that in the combined effect of illumination, architecture, fountains, fire works and search lights, it transcends anything ever seen at the World's Fair. The secret is in its unlimited power of Niagara Falls, transmitted here through three bedded coils pointed out to us in the Electric Building, carrying 11,000 volts.

The Governor spent Saturday at Niagara.

P. S.—Dear Friend Trice: This very meagre sketch of "Florida Day" exercises is written under difficulties.

It is now the morning (Saturday) of the announcement of the death of the President. I am seated alone on the terrace of the great esplanade, facing the electric tower, the mammoth buildings and the most beautiful waterway of fountain jets and statuary in the world.

The now famed "Temple of Music" is within twenty-five feet of me as I write, while two American Indian (real ones) sit on the steps and I am scribbling on the arm of a bench.

From where I now sit I can look through the window to the very spot where the President was shot. (He stood on the main floor, just to the right of the organ.)

But what a transformation scene from yesterday! * * * Last night I saw 50,000 or 75,000 people passing like flowing tide through this great court of honor and magnificence. To-day scarcely see one. Even the exposition guards are gone or invisible.

The lights are out, the fountains are stopped, and the scene is that of deserted magnificence.

Where the hum of tens of thousands of voices was heard yesterday, silence now reigns supreme. Even the flags on the apparently neglected buildings droop and flutter at half-mast.

Only from the great Temple of Music does any sound come. The building itself is a poem in architecture and from the great organ within there now comes the solemn strains of almost a funeral dirge. The notes of the organ, now playing, were last heard by President McKinley until he himself repeated the lines of the hymn last night, "Nearer, My God, to Thee." He was shot standing near the organ.)

As I conclude, a full regiment of soldiers just passed me, powerless in their strength, and I will follow them now to where the dead President lies.

E. WARREN CLARK.

To Mountain and Sea Shore Resorts.

Before completing arrangements for your summer trips or deciding upon places at which to spend the autumn, you should call on Ticket Agents and Passenger Representatives of the Seaboard Air Line Railway. They are specially prepared to furnish information as to lowest rates, quickest schedules and most attractive routes to the Mountain Resorts in Western North Carolina and Southwest Virginia, also to the Seashore Resorts of Ocean View, Virginia Beach, Old Point Comfort, the great Eastern Resorts along the Jersey Coast and other popular places reached via the Seaboard Air Line Railway. This Company is offering lower rates than ever with perfect train service and fast through schedules. It will interest and benefit you to call on Seaboard Air Line Railway Agents.

DEATH FROM APPENDICITIS.

Isaac Posey, a colored boy, well known to the citizens of Tallahassee, was operated on for appendicitis by Dr. Henry E. Palmer, last Thursday morning, about 11 o'clock. The boy had been sick for about three days, and was suffering acutely at the time of the operation. Dr. Palmer was assisted by Doctors Charles M. Austley, E. M. Brevard, E. E. Philbrick and George W. Betton.

It was seen from the first that the boy was suffering from a bad case of the disease, and the moment the abdominal cavity was opened it was found to be full of pus and virus. A large calcareous secretion was found completely stopping up the cavity of the appendix, which would in itself have made the case a dangerous one. It had gradually developed into a general inflammation instead of a local one and finally ended in what is called septic peritonitis.

Although given the best of care and treatment Posey died in the afternoon (Monday) at about 3 o'clock.

CHAMBERLAIN'S COUGH REMEDY A GREAT FAVORITE.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a great favorite with people everywhere. It is especially prized by mothers of small children for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by Wight & Bro. and all medicine dealers.

STATE FAIR NOTES.

The policy of the State Fair management has been from the beginning to take the people into the confidence of the management, and as affairs progressed from time to time to keep in touch with the farmers and fruit growers who are making this fair. County after county has come forward with appropriations and donations, until twenty have indicated their determination to exhibit, and it is more than probable that thirty will be here when the doors open. Private exhibitors will be there in force, and we know of many who have not as yet notified the management. Shows, live stock and poultry coming out of the State must be added to all this. And again, a Good Roads Congress, the Mayors and Common Councils, the County Commissions, the Christian Endeavor Society, the Fraternal Union of Americans, Boys, and we hope the State Militia, five companies and bands. Every effort is being made to make it a home affair.

Object lessons will educate our producer, and the productions will reveal wonders to our own people. Let us know ourselves and help ourselves with better methods to better conditions.

It was Orange; now it is Lake, Volusia, Polk and DeSoto and Marion. Baker county will be in line, and ten weeks from the fair. Don't say our people are not up to the front with the best.

The Fraternal Union of American Boys will have a gala day at the fair. The boys say there will be 3,000 of them.

A State paper says: "Manager Realy of the State Fair, played a trump card the other day when he extended a cordial invitation to the Young People's Society of Christian Endeavor to hold

their next annual meeting on the grounds during the progress of the fair in Jacksonville. A meeting of the leading spirits of the society was held Tuesday night in Jacksonville, at South Lake Weir, to consider the invitation. It was accepted. It was agreed to invite the Epworth League and the Baptist Young People's Union associations of the State to meet with them and the attendance is expected to be very large.

"The object of this gathering on the fair grounds is to show to the good christian people of the State that this aggregation of agricultural resources will be conducted on a high moral plane, and should have the encouragement and support of all good people."

Poultry raisers and fertilizer companies are offering premiums. It will help the management if all who intend to offer premiums advise the General Manager at once.

IN MEMORIAM.

At a meeting of the Directors of the University Library, held Friday night, the 15th inst., the following memorial notice was ordered spread on the minutes, and the secretary was ordered to furnish a copy for publication in the local papers:

Conscious of the loss which the library has sustained in the death of Miss Lizzie Cotten, the librarian, and Board of Directors wish to put on record their appreciation of her long and faithful service. For over twelve years—since her election on April 4, 1899—she has worked earnestly for the prosperity of the library. Courteous and pleasant with all, she made many friends and no enemy; her most anxious thought seemed always to be what was best for the interests of the library; and thus knowing her faithful zeal, we can the more earnestly sympathize with those who have been called to grieve over the broken ties of relationship, as well as of friendship; and we wish the expression of our sentiments placed upon the minutes as some evidence of our recognition of her long continued faithfulness.

By order of the Board of Directors.
W. H. CARTER,
President.
FRED. T. MYERS,
Sec. pro tem.

THE PAN-AMERICAN EXPOSITION will close October 31st. Those who have not yet visited this marvelous Wonderland are reminded that the time is growing short.

In order to permit every citizen in the territory traversed by its lines to take this trip, the Seaboard Air Line Railway has placed in effect a rate of practically one fare for the round trip to Buffalo and return, tickets on sale September 3 to October 20, inclusive; tickets good to return within twenty days from date of sale. This liberal concession should meet with a hearty response on the part of the traveling public, and many will doubtless avail themselves of the opportunity of attending this last and largest of national exhibitions.

A PROSPECTIVE INDUSTRY.

Tallahassee may soon be the headquarters of a newly-patented "self-skimming" evaporator for the manufacture of syrups and sugar from sugar cane, which is expected to revolutionize the manufacture of this product on the small farms. The patent is owned by the Eastman, Ga., Evaporator Company, of which W. A. Morgan is president.

Mr. Morgan has been traveling pretty extensively recently, looking for a location in the heart of the sugar cane growing section, and expressed himself as much pleased with Tallahassee.

In fact, he is so well pleased that he had almost completed a deal for a home here. While the papers were being fixed up he was taken sick and left for home, promising to complete the negotiations by mail.

The evaporator above mentioned is a very simple arrangement, but is said to be absolutely do away with "hand-skimming." Every cane grower knows what an advantage that is. Another advantage possessed by this evaporator is its cheapness—only about \$20. Then, again, its simplicity commends it to every one.

Tallahassee hopes to see Mr. Morgan locate here. This is an excellent field for his evaporator, and there is little doubt but that Middle Florida will in a few years grow more cane than any other section in the Union, except Louisiana.

CUTS AND BRUISES QUICKLY HEALED.

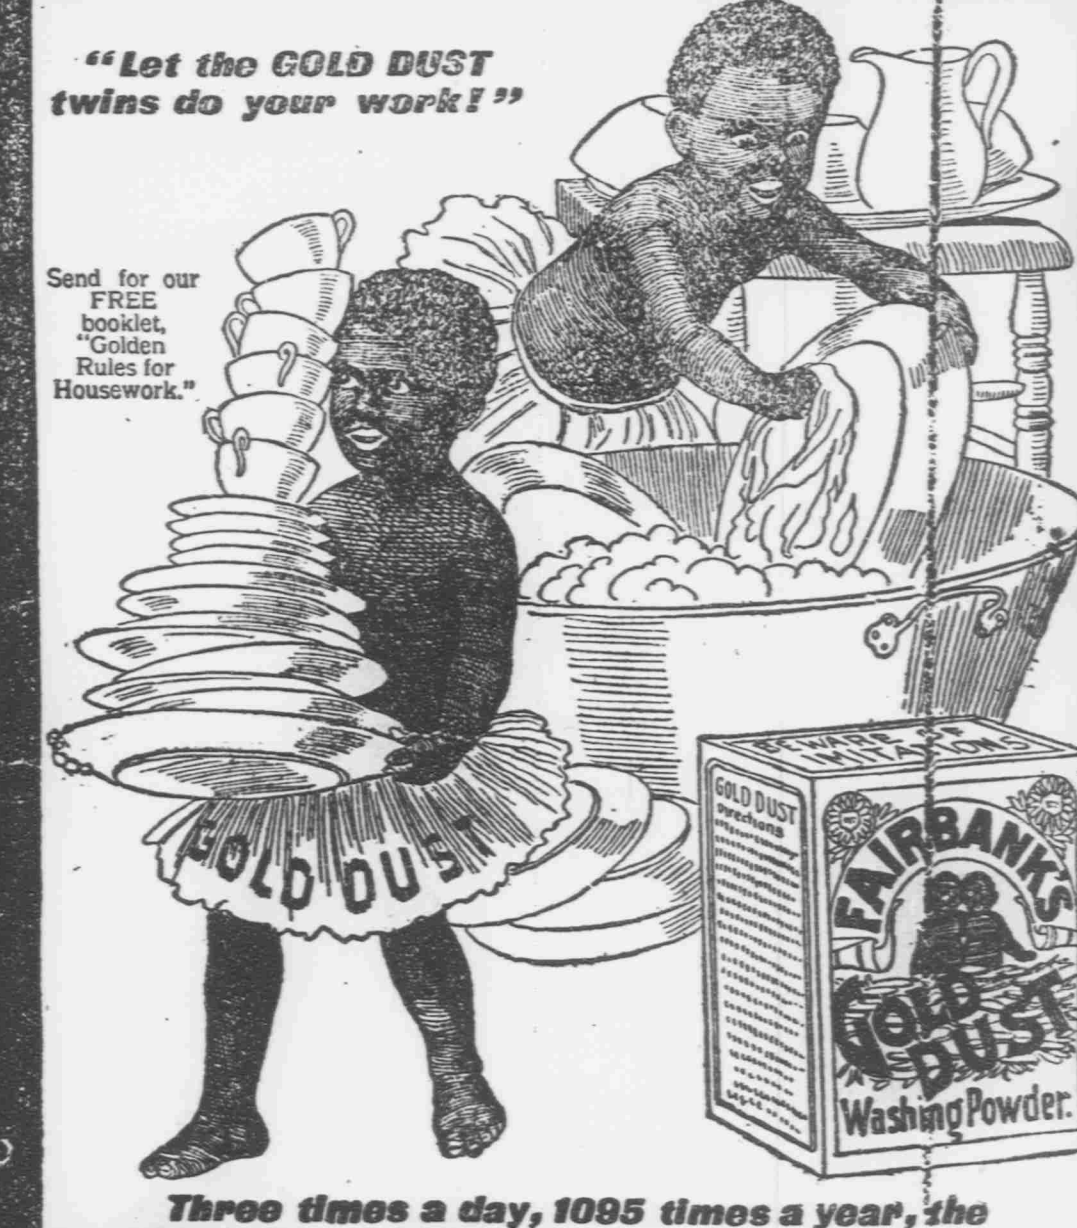

Chamberlain's Pain Balm applied to a cut, bruise, burn, scald, or fire injury will instantly allay the pain and will heal the parts in less time than any other treatment. Unless the injury is very severe it will not leave a scar. Pain Balm also cures rheumatism, sprains, swellings and lameness. For sale by Wight & Bro. and all medicine dealers.

ARREST FOR TRIPASS.

Tom McKenney, colored, was arrested for trespassing and hunting on posted property, and brought into court on Friday morning, September 13, on complaint of Mr. James Houstoun, on whose property he was discovered with a shot gun, hunting squirrels. He was fined the full extent of the law by Judge Whitfield, \$20 and costs, as the Judge said, "to break up this pernicious custom of indiscriminate trespassing and shooting on posted grounds."

Many people do not know why, often, very large fines are attached to very common or unimportant cases. In asking the Judge this, he replied: "The fines are regulated somewhat by each individual case. The Sheriff's expenses are regulated by distance, help, and other things. When the Sheriff is appealed to the law requires him to catch the offender, whether the expenses incurred in so doing are more or less; so a very light offense sometimes carries a very heavy fine, or a very heavy offense may be let off with a very light fine."

"Let the GOLD DUST twins do your work!"

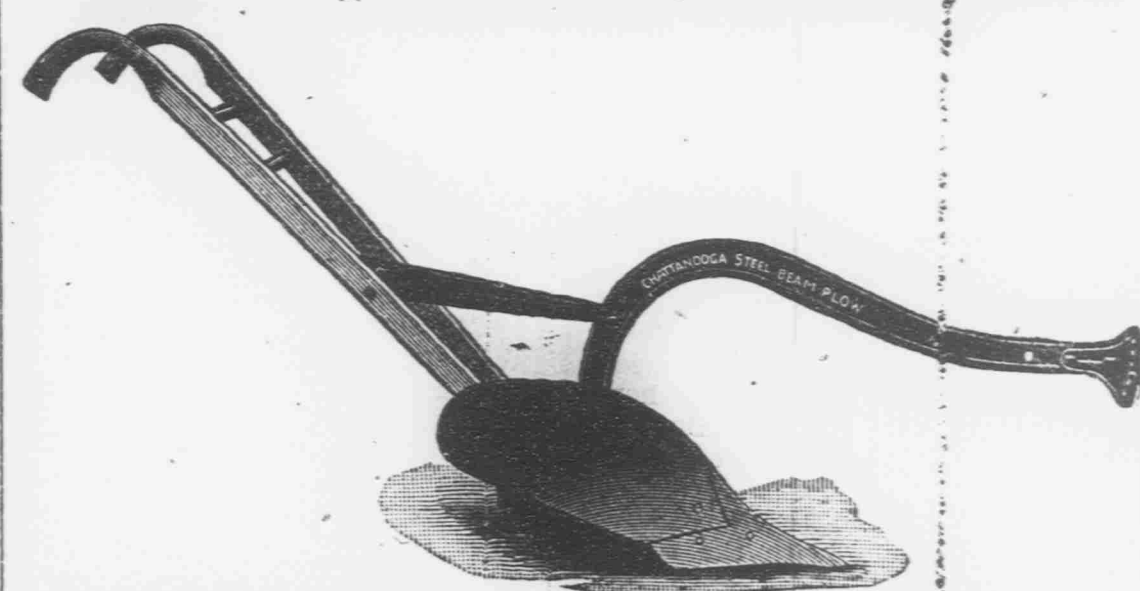

Send for our FREE booklet, Golden Rules for Housework.

Three times a day, 1095 times a year, the GOLD DUST twins make your dish-washing easy. The dishes will shine brighter and be cleaner than soap or anything else could make them. There is no cleaning that GOLD DUST will not do better, easier and cheaper than soap or any other cleanser.
